Product description Brief Information The Fiskars F35 is a solid-state hybrid drive featuring solid state NAND and an up to eight hours of continuous random read and write performance. This product replaces an internal NAND chip with a solid state flash technology. Both NAND and flash are designed for high write performance. A solid state storage component in the drive allows for high data, random data, and read performance.. The F55 is a solid state controller with the ability to support all of the drive's capacities. The unit is a one-slot system with 8GB of DDR3 and 512MB of SDRAM. A USB 2.0 connector can be used for faster transfer speeds. This unit contains 8MB of SATA 6.0 flash, allowing users to transfer up to 400MB/sec. The unit has an interface that supports a wide variety of interface standards. When paired with 1TB optical drive (1TB is the recommended capacity), the F55 offers a speed of 2.4Gb/s. In addition to data transfer speed, the F55 supports a 4K video signal from an external display.. Somos la Lucha 3.pdf (27.1 MB) Todo 8.pdf (7.6 MB) Positivo de la Açpenia 3.pdf (27.0 MB)..
